

GROUPE

HEX + safyr.

GMP and ISO 17025 compliant, our group is able to respond to all issues relating to contamination control and environmental quality. We carry out on-site tests and inspections, and offer complete solutions to our customers. We operate in areas where contamination control is a natural requirement (cleanrooms and controlled environments). We'd like you to join a team of cleanroom experts, in a company that's always on the lookout for innovation and development. LYRA® is an innovative SaaS software solution for the cleanroom world, enabling rapid identification of the causes of alerts and deviations.

The HeX+safyr group, experts in contamination control in cleanrooms, is looking for :

SaaS Project Manager (M/F/X)

YOUR TASKS FOR THIS POSITION

Project management :

- **Interface with users and stakeholders** : Gather and integrate feedback from users and stakeholders to continuously improve the product. Act as the main interface with project sponsors.
